## DATA ANALYST SUMMARY

- Designed a problem log dashboard which reduced the logistics cost by 15%
- Engineered conceptual Data model and supervised a team of 4 to design a SQL database
- Reduced the process of data cleaning by creating automation resulting in 90% efficiency

## WORK EXPERIENCE

### Randstad

#### Data Analyst

September 2020 – Present

- Developed new Tableau dashboards and visualizations that provided a better view of the data for stakeholders to help them make faster decisions
- Investigated data quality issues by tracing it back to its source
- Developed cumulative flow diagrams to demonstrate workflows for new projects

### Intellitrans

#### Supply Chain Analyst Intern

February 2019 – April 2019

- Debugged existing SQL queries to improve data quality
- Developed new reports and analytics for the clients
- Resolved customer's issues by fixing existing Tableau dashboards

## TECHNICAL SKILLS

- Python, SQL, Tableau, Microsoft Excel, Statistics, Google Analytics, Visualization, Machine Learning, HTML, CSS, Looker, Linux, MATLAB

## EDUCATION

### BACHELOR OF SCIENCE IN COMPUTER SCIENCE

December 2019

#### University of Central Arkansas

- Relevant Coursework: Data Mining, Machine Learning, Database Systems

### PYTHON FOR DATA SCIENCE AND MACHINE LEARNING

August 2019 – September 2019

### GOOGLE ANALYTICS CERTIFIED INDIVIDUAL

February 2020

## PROJECTS

### Premier League

- Responsible for planning and allocating work in the team as per project requirement
- Used sample data to test and modify SQL commands for the database

### Yelp Reviews Classifier

- Built pipeline objects using Python for data cleansing
- Developed a Machine Learning model with 92% precision to classify reviews text into stars using Natural Language Processing (NLP)

## ACTIVITIES & LEADERSHIP

### Vice-President of the Computer Science Club

- Communicated and invited speakers to the club meeting to encourage and motivate students
- Endorsed events on social media that increased attendance by 20%
- Delegated work and responsibilities to the other leaders

## INTERESTS

- Hiking and exploring new trails, Reading (Currently: The obstacle is the way), Watching soccer and the Houston Rockets
